How to Take Açafirão Gold GenoJAM Capsules?

Adults should take 1 capsule per day, without chewing, with a little liquid.

How Long Can You Take Açafirão Gold GenoJAM Capsules?

As a dietary supplement, Açafirão Gold GenoJAM is part of food products. Dietary supplements should be taken for as long as necessary to meet the nutrient requirements they contain.

Why Do Açafirão Gold GenoJAM Capsules Contain Excipients?

For technical reasons, calcium phosphate and vegetable magnesium stearate are necessary as excipients in the manufacture of Açafirão Gold GenoJAM capsules. All excipients used are authorized by authorities and comply with European requirements for additives allowed in food.

Does Açafirão Gold GenoJAM Contain Known Allergens?

Açafirão Gold GenoJAM capsules are vegan and do not contain allergens found in milk, eggs, and fish. They do not contain any nut or cereal components or soy. Açafirão Gold GenoJAM capsules are gluten-free, lactose-free, and preservative-free.

How to Store Açafirão Gold GenoJAM?

Açafirão Gold GenoJAM capsules should be kept out of the reach and sight of children, in a dry place, at a temperature below 25°C, away from direct sunlight, and in their original packaging.

Are Açafirão Gold GenoJAM Capsules Controlled?

Dietary supplements are a matter of trust. Laboratory analyses are conducted to control the saffron extract's content in substances that give it its value, notably safranal and crocetin. The product is also subject to the analysis and research of environmental pollutants such as cadmium, lead, mercury, benzo[a]pyrene, and arsenic, as well as analyses of microbiological contamination.

BIOJAM researches, develops, and markets quality products.

The selection of raw materials and the manufacture of Açafirão Gold GenoJAM capsules are subject to an audit procedure that requires compliance with quality assurance standards. High-quality raw materials undergo complex biological analyses. Before any marketing of the finished product, it must undergo a quality assurance process that ensures consistency.

Notes

Açafirão Gold GenoJAM capsules are vegan, gluten-free, lactose-free, and free from artificial preservatives or colorants. Capsules may have a different fill level or may not be completely filled. This fact does not affect their quality. Dietary supplements are not a substitute for a varied diet.
